CYCLING

All Level Classes: Classes are not exclusive to the experienced rider, as they can be self-regulated and the bikes adjusted to meet the individual ability of the novice or beginner.

Cycle: This class combining a variety of cycling and a weight lifting sets sure to build your body and mind.

Cycling Interval: Combines short, high intensity burst of speed, with slow recovery phases. This is repeated several times with variations throughout the class.

LM SPRINT: 30 min high intensity interval training (HIIT) workout to build endurance for long rides. Max effort will smash your fitness goals and build your endurance like you never imagined.

Tour de Tunes: Each weekly ride revolves around an exclusive music genre-instructors choice. Big focus on hill climbs and creating an outside ride inside.

GROUP FITNESS

LM BODYPUMP (all levels): Uses barbells, plates & benches to build lean muscle throughout entire body. Low weight + high repetition will fatigue one muscle group at a time.

LM BODYATTACK: High energy, sports-inspired cardio endurance training that includes cardio, strength and agility. Novice to advanced athlete will reap the benefits of this steady state training format. BODYATTACK is about sharing your energy and working to your choice intensity. Take it high, take it low... make the workout your own. All BODYATTACK classes are 45 minutes.

LM CXWORX-CORE: 30 min core conditioning class with a huge focus on stability and strength. You will train the entire core in both prone and standing positions. Use plates and resistance bands to target every core muscle from hips to shoulders. This class is zero impact and caters to all fitness levels from beginner to advanced athlete.

Gym Class Heroes (intermediate to advanced): Incorporates calisthenics, running, jumping, and weight lifting done at *high intensity*, short intervals.

LM GRIT: Short on time? 30 minutes of HIIT is just what you need. The secret to becoming fitter faster is interval training. Short bursts of work followed by minimal recovery will send your heart rate into overdrive and leave your body burning calories up to 16 hours post exercise (the EPOC effect). Not recommended for pregnant participants.

LM GRIT ATHLETIC: The ultimate sport training utilizing bench, plates, drill speed, agility, and power to increase your athletic abilities in sports and everyday functional movement.

LM GRIT CARDIO: Speed, speed and more speed! A variety of full body movements that will get you fit, fast. Integrated training for arms, legs and core. No equipment in this format.

LM GRIT STRENGTH: Focus on load and range to elevate the heart rate. Use bars, plates and body weight movement exercises to build strength you didn't know was possible.

PEAK Strength: 25 minutes of strength exercises using barbell and/or hand weights followed by 25 minutes of core conditioning.

PEAK X-treme (intermediate to advanced): Cardio based total body conditioning with plyometric drills and strength, power, and resistance intervals.

Oula (all levels): High energy workout that combines the depth and soulfulness of a mind body practice with the carefree playfulness of a living room dance party. It's not about what it looks like, it's about how it feels.

Pump and Core (all levels): High repetition to tone and sculpt every muscle. Focused on balance, core strength and muscle development to improve strength and endurance.
